City Develops Water Conservation Plan

Public Comments Accepted Until August 14, 2011

The City developed a Water Conservation Plan in accordance with the Water Conservation Act of 2004 and to meet the provisions of Colorado Revised Statute. The purpose of the Water Conservation Plan is to guide Dacono in the process of water conservation planning and implementation. Since Dacono will experience significant growth, it is important for the City and its residents to conserve as much water as possible today and set up a system for smart water use in the future. The Plan, prepared by Clear Water Solutions, documents Dacono's water system, past and future water use, planned capital improvement projects, and the water conservation planning process used in accordance with Colorado Water Conservation Board's Water Conservation Plan guidelines and policies. The City is accepting public comments on its draft Water Conservation Plan until August 14, 2011. To view the draft Water Conservation Plan, go to www.ci.dacono.co.us or view a copy at Dacono City Hall, 512 Cherry Street, during normal business hours. Comments should be sent by U.S. Mail, fax, or e-mail to the City of Dacono, attention: Kelly Stroh, Finance Manager.
